ASX ANNOUNCEMENT

**Mission Downgrades Revenue Forecast From Biodiesel  
Contract with Global Oil Major**

**Mission NewEnergy Limited (Nasdaq:MNEL, ASX:MBT)**, a global provider of energy from renewable sources and one of the world's largest Jatropha plantation companies, wishes to announce that gross revenue under the 6 months contract to supply sustainability-certified biodiesel to a global oil major is expected to be lower than expected.

The six month contract which commenced in January 2012 was expected to generate revenue of around US\$40 million. However, under the contract the customer has the option to cancel monthly shipments and opt to pay Mission a fixed fee per cancelled shipment instead.

The customer, citing availability of cheaper supplies from elsewhere, has advised Mission to cancel the March and April shipments thereby reducing expected revenue by about \$14 million based on current prices. So far Mission has shipped the January load and is expected to ship the February load soon.

"Palm biodiesel from Malaysia is facing stiff competition from Palm biodiesel produced in Indonesia due to a more favorable tax regime in Indonesia which ensures cheaper feedstock prices for Indonesian producers," said Nathan Mahalingam, Group CEO of Mission. "The Malaysian biodiesel industry has virtually ground to a halt due except for production to cater for the local Malaysian B5 biodiesel mandate. The company progresses to improve supply quantities to the its local customers, albeit very slowly," Nathan added.
